

The Ins And Outs Of The Automatic Dependent Surveillance Broadcast System (ADS-B)

The movement to the next generation of aviation is being enabled by a shift to smarter, satellite-based and digital technologies and new procedures that combine to make air travel more convenient, predictable and environmentally friendly. ADS-B will play a major role in its rebirth. Learn the new look of air traffic control. Click the link below to register TODAY!

Directions: Airport is located off Route 110 and Route 109 in Farmingdale, and these routes can be accessed from major arteries: Long Island Expressway, Southern State Parkway, and Sunrise Highway.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
